The key practical solutions for overcoming paralysis of prevention of the ROOT causes of fast nearing HUMAN EXTINCTION - repatterning of self defeat consciousness, resulting from deactivation pain alarms to toxicity and general zombification, left unopposed by Emotional/Sensory Reawakening

THE BACKGROUND

There is no family that had not suffered from the painful loss of their loved ones to cancer, dementia, strokes, heart attack, autism, and many other *ENVIRONMENTAL ILLNESSES that are not labeled as such by the medical industry*, while avoiding the PREVENTABLE nature of these normalized killers. But, such moral blind spot does not spare anyone, *including* those, who perpetrate such mindset of SELF DEFEAT, cruel and hazardous to both self and others. This one of many blind spots is the result of individual and institutionalized cognitive dissonance, that is elusive and hard to grasp...

Fortunately, there is the reason for tangible HOPE, however... Due to the false conventions of compartmentalization of our society, to most of people, including members of academia and music/Arts community it may appear surprising that according to the recently discovered evidence for *Bach Sensory Deactivation Effect*, the revered throughout the world by millions devotees Baroque composer Johann Sebastian Bach had found **the solution to overcome blind spots and optimize the brain function - by infusing his intellectually complex polyphony with resonant emotional expression.**

This daring act broke false dogmas of music composition of his time, leading to retaliatory

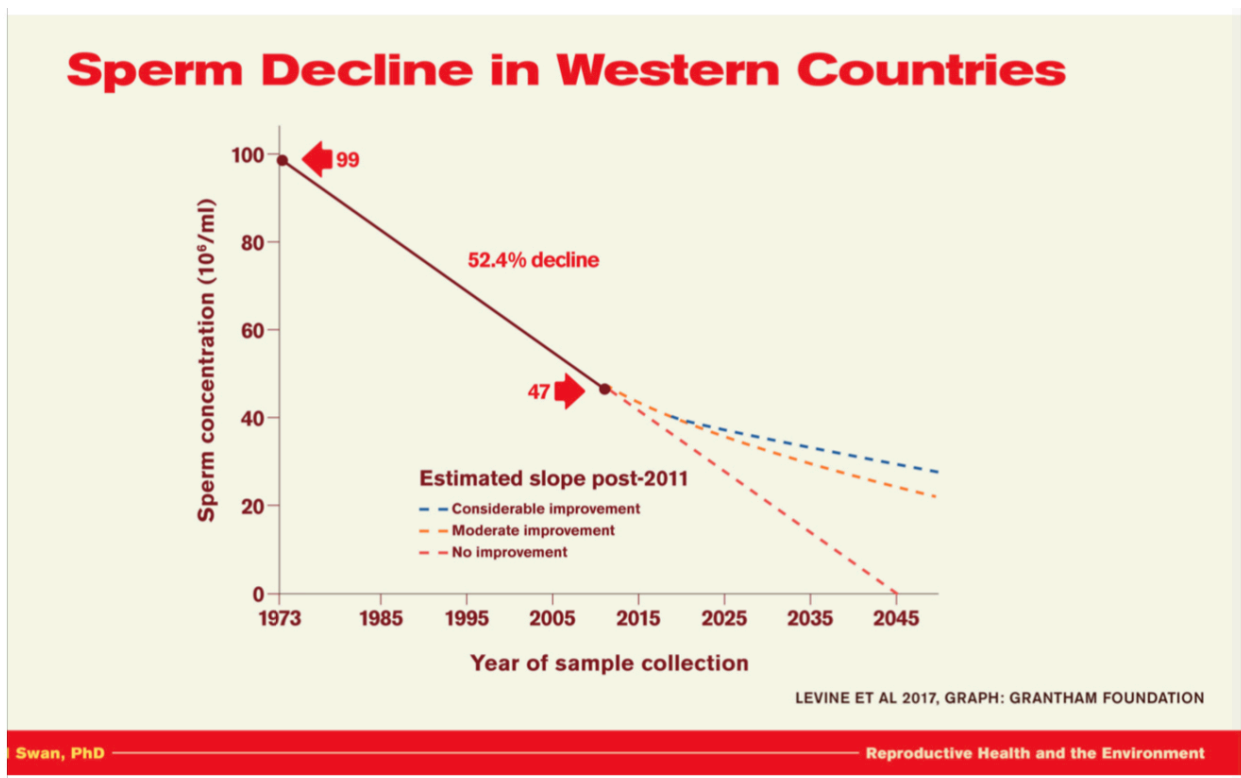

imprisonment and lifelong witch hunt against the rebel with neuroscientist's mindset. But, despite the fact that this invaluable innovation dramatically changed the vector of music history, it had been obscured in Bach's own music by the false dogma for mechanical performance that distorted the key daring innovation achievement of the composer - the ability of his polyphonic music to provide **emotionally/analytically balanced engagement** for the performers and the listeners (while related archival records had remained ...under-publicized at the great expense to music and to humanity). And thus, the visionary innovations of this music educator with the mindset of neuroscientist on how **to harness Music instinct, in order to elevate individual and collective consciousness, bring tangible HOPE** in what seemed to appear to the majority of people, as the "hopeless" aspects of mental malfunction, experienced by every user of evolutionary young and still often misfiring human brain. In fact, recently discovered by Ms. Rozalina Gutman *Bach Sensory Deactivation Effect* had demonstrated the evidence for **the direct correlations between the blind spots and sensory shutdown under the pressure of groupthink/authority**. But contrary to similar results in the experiments for textbook cases of Asch, Milgram, Lucifer Effects, **music-based Emotional Reawakening had demonstrated high efficacy in the recovery of clarity** from otherwise hard to overcome impacts of such subliminal pressures. **Such reflection and relief from hard to recognize perceptual blind spots can be instrumental in all domains, as the great relief for all of humanity, leading to positive change and progress in every part of our society.**

However, due to global threat urgency, among multitude of implications of such promising discovery, Ms. Gutman's focus had been dedicated to trying to emphasize the special significance of this 300 year old cognitive technology for the urgent prevention of

fast approaching Global threat to HUMAN EXISTENCE -

"PAINLESS" SLEEPWALKING INTO

ZERO SPERM COUNTS GLOBAL CRISIS = HUMAN EXTINCTION onset, forecasted by 60+ global studies by 2045 [!] during the lifetime of grandchildren of today's adults
The rate of plummeting sperm counts during only 5 past years of 2017-2022 had increased to 2.64%/year, compared to already staggering 1%/year earlier rate that led to forecast of 0 (ZERO) by 2045 then...

The “painless”, thus elusive pandemic of Zero Fertility Global Crisis is deepening, due the increasing **CUMULATIVE effect of normalized chemical toxicity from manmade consumer goods**. Nothing could be as urgent, as this problem that needs to get THE TOP priority and halt all normalized toxic routines, conventions and habits. With no rapid global changes, by 2045 this silent “painless” man-caused pandemic is to drive our civilization to **intolerable spread of environmental illness and unbearable levels of pain, followed by disappearance of the human race in agony of childless generation of grandchildren of today’s adults, angry for their grandparents’ sacrifice of their childbirth to self centered complicity to toxic addictions, living in oblivion to the need to prioritize the fight for humanity**.

Despite the fact that this denial of reality endangers the future of our civilization, the problem had been **left with no attention by the brain sciences**, since it is very hard to be aware of and to grasp. But addressing this ROOT cause is most instrumental and utmost urgent. And finally, the understanding of the underlying sociosomatic mechanisms had been reflected with clarifying evidence, thanks to music of Bach (See *Bach Sensory Deactivation Effect*):

This horrifying forecast is about incomparably horrible outcomes and is the warning of still PREVENTABLE devastation and suffering among most of population, far worse than by any other known pandemics in the past, while the example of recently felt horrible effects of Covid pandemic seems like a speck in comparison to this impact of surrounding us CHEMICAL TOXICITY that has been allowed to pervade all part of the fabric of our life ...

- So, WHY hasn’t the urgency of the problem been perceived by both the public and the public health leadership?
- WHY this PANDEMIC had not been in daily news to inform the public of the need for safeguarding from toxicity?
- Why no actions to create global strategies to prevent HUMAN extinction had been made?

The key answer for this paradox is

“THE PAINLESS” nature of this global threat, making it FALSELY [!] APPEAR TO HAVE “NO” EXTREME URGENCY.

Currently “painless” development of the looming catastrophe as well as similar idle disengagement and the state of paralysis in the face of the urgent and drastic actions of prevention within narrow window of opportunity is revealing of the hard to grasp in our unconscious mind collective blind spot - **THE SHUT DOWN PAIN ALARMS TO TOXICITY.**

This collective blind spot is a part of broader trend of

ZOMBILIFICATION,

resulting from subliminal conformity pressure of the herd instinct, left unopposed by music/arts-based Emotional/Sensory Reawakening

However, the irresponsible behavior of public health agencies, evident of denial towards such incomparably serious global threat, is the unfortunate public health hazard, since it resulted into millions of people’s health damages and deaths, that must have been prevented from impacts of PREVENTABLE environmental illnesses, instead of current **complicit lack of defense in the face of senseless chemical warfare against population**. This multigenerational problem manifested due to common retaliatory, and at times cruelly uncivilized response to the desperate pleas for help from suffering victims, due to the lacking intellectual leadership among individuals in authority positions with significant capacity to shape the direction of development of societal trends with global multigenerational implications. No matter how bitter lessons had been, nothing had changed, allowing for this dangerous tradition of **their self defeat consciousness to remain unbroken...** And it came at the staggering price for humanity that every member of our generation has no choice, but to face the facts of undeniable reality: **We, the users of evolutionary young human brain are not in full control of this**

complex structure. But to get over enslavement, we are blessed with **the ancestral gift of Music instinct**. And the more we know about the ways to apply it, the more emotional freedom we can gain.

It is important to be aware that caused by widespread social virus of *Sensory Deactivation* had brought upon most of humanity **the atrophy of sensory defense mechanisms**. And it had become ubiquitous, due to multigenerational spread, due to being **left unopposed by music-based Emotional Reawakening**. Cultural starvation and sensory scarcity trend set variety of negative domino effects, such as *inter-hemispheric imbalance, disrupted heart-brain link, conscious/unconscious cognitive disconnect etc.* Resulting from this **primitive unbalanced unilateral cognition of self defeat** had gained dominance in the society over **bilateral, integrative, holistic consciousness**. And as the consequence, our generation has no choice, but to face the unraveling outcomes of this serious problem with additional challenge -

it has become hard to be aware of elusive and hard to grasp deepening **“PAINLESS” pandemic of environmental illness, due to shutdown of PAIN ALARMS**. Additionally, the vicious circle of complicity to toxicity is also driven by the HORMONE-DISRUPTIVE neurotoxins that also contribute a great deal to the troublesome havoc in neurochemicals that run all processes in our body and mind.

Call upon global, national and local government institutions to establish International Guardianship Status of Cultural Heritage Treasurers for music/arts educators/therapists,

as the urgent form of **OFFICIAL APOLOGY** to J.S.Bach, to his colleagues-music educators/therapists and to humanity, in the face of dangerous levels of Sensory Deactivation during rapidly closing window of opportunity during a **COUNTDOWN2045** to prevent **HUMAN** extinction

The society hurts the Arts, because it lost its soul (Deepak Chopra). The outrage of putting Bach through suffering from **unapologetic human rights violations remains emblematic today**: The false, three centuries long dogma of marginalizing the status of professional group of music/arts educators/therapists, and *absurdity of devaluing their professional dedication with unspeakably unfair and cruel dismissal of the complex and the most vital for human existence needs, including transformative impacts on consciousness, has become intolerable for humanity*. The wisdom from these bitter lessons has NOT been learned, since centuries-overdue changes had not been grasped as the key existential for humanity by unaffordable nearsightedness of inept leadership: Made to be “traditionally” devalued, the marginalized status of music and musicians in the society translated into low/no financial reimbursement and missing other essentials, such as adequate healthcare (falsely called in our society “benefits”), space for instruction/therapy/performances, purchase/maintenance of musical instruments, etc. Such obstacles for musicians and artistes to share their gift, to pass down their **unique, intangible, yet most invaluable power to foster INTEGRATIVE, BILATERAL MINDSET, by teaching the skills of tapping into Music instinct’s transformative and restorative powers -**

EXISTENTIAL for our civilization, made this profession scarce- just contrary to currently desperate needs of the society for elevating consciousness. No attitudinal changes had been made by our advanced society's power institutions, in order to protect from incivilities against marginalized and made to struggle musicians and artistes, disabling their *unique invaluable capacity to transform consciousness - at unaffordable price to humanity*. Little had changed in how power institutions of our aspiring for democracy society address this top priority, since the time, when 300+ years ago the life of impoverished music educator J.S.Bach became

consumed by **THE LIFELONG WITCH HUNT, including FALSE IMPRISONMENT, in effort to assassinate his character of the 5th Evangelist and to inflict emotional distress, while taking advantage of musician's lack of funds for legal defense from blunt human rights violations.** Today, while such dark stain in human history is finally verbally denounced, the dear price humanity is made to pay for such outrage is yet to be recognized - through the **ACTUAL IMPLEMENTATION** of the solutions for this remaining and emblematic for our time problem. BSDE provides the framing for easier grasp of **the direct link of suffering from existential threats for millions of people to the scarcity of the skills for practicing felt sense expression through music and the arts, caused by the tremendous limitations to today's musicians, made to be unable to share their music/arts gifts for the benefits of elevating consciousness.** Musicians' and artistes' capacity for acting in similar to Bach's role of *the advocates for humanity* and **transformers of self defeat consciousness is still limited by the institutionalized ill-minded excusiology for PRIORITY ADEQUATE FUNDING and other necessities that are now urgent for the access of the public to high quality music/arts education, essential for attunement to vibrational nature of ur universe.** Lacking intellectual leadership among society's power institutions is made evident and is impermissible during COUNTDOWN2045 to "painless" HUMAN extinction.

That is why, society-wide movement to establish the urgency of the new, based on self compassion **priorities for NO BUSINESS AS USUAL reorientation of all parts of the society isn't optional at this time.** This includes proactive **measures to elevate the consciousness through expansion of music skills, along with the 1st step in this process - reversing current devaluation of the profession of music/arts educators/therapists.** Similar to Bach's time **unfair status and related vulnerability of music/Arts educators/therapists in the society has made the profession scarce and rare, causing public health crisis of widespread Sensory Deactivation and zombification that brought humanity to the brink of extinction.** Thus, at least at this time, every member of humanity deserves to get access to learning the skills of utilizing Music instinct. Current scarcity of music/arts educators/therapists demands for **the urgent public shield for this professional group of catalyts of inner change from being a magnet for retaliatory harassment and various incivilities,** due to the tradition of unfairness of being vulnerable and defenseless, and thus, an easy target for incivilities, disruptive of their sharing of the ancestral gift of music and the arts. It should be declared, that during COUNTDOWN2045 interference with the abilities of these critical for local and global communities **transformers of low consciousness** in their use of their full capacity of their unique and rare gift and to make obstacles to their passing down the skills for using **unique transformative power of Music instinct, translates into tangible impact on global consciousness, including implications manifesting into widespread multigenerational sensory shut down of pain alarms for detection of toxicity. The resulting Sensory Complicity to toxicity permitted collective blind spot of irrelevant Health and Safety standards. This led to the vast hazardous impacts from multitude of toxic consumer products that had been causing millions of environmental illnesses and deaths from cumulative effects from chemical hazards, no longer detectable through pain alarm.**

Thus, the consequences of notorious failure to comply with research data on the benefits of music for brain function enumerates and constitutes responsibility for **THE CRIMES AGAINST HUMANITY, prosecutable in International Crime Court in Hague, Holland.** It is free from unethical *preferential* treatment, offered by current USA Law's loopholes, such as **IMPUNITY** from responsibility for crimes, extended for public servants by public servants, whose blind spots disabled their grasp of being a part of self defeat system, large enough to cause suffering and deaths to millions of consumers from various environmental illnesses (falsely unlabeled as such), including their own/loved ones' suffering from indiscriminate, yet preventable plague that demands for solutions by *above average intellectual leadership, not permitted by IMPUNITY.*

Humanity deserves a better faith than sleepwalking into extinction.

Bach Sensory Deactivation Effect provided the evidence of the incredible power of Music instinct to clear blind spots and to optimize cognition, as the result of the resonant impact of his analytically/emotionally balanced music, helpful to foster/restore bilateral brain function that allows for INTEGRATIVE MINDSET, capable of complexity without oversimplification. **However, such higher than average mental clarity comes with the need for making ethical choices: to act in the way that (1) supports the process of change with global multigenerational impact, OR in the way that (2) stifles the process of change, following inertia of self defeat mindset, despite the urgency with global implications?**

Today, three centuries later, Bach's example of having to suffer from retaliation to being the messenger of such reflection of change, propelled by his above average mindset of genius, **still remains emblematic of the urgent need to establish International Guardianship Status of Cultural Heritage Treasurers for music/arts educators/therapists,** due to still common, yet unaffordable for society retaliatory barriers to the urgent Sensory Reawakening and other changes in the consciousness that music and the Arts need to help propelling during fast closing window of opportunity, NOW, URGENTLY, FOR THE SAKE OF PRESERVING HUMANITY'S BIRTHRIGHT, being threatened to disappear without robust changes, **as soon as among generation of grandchildren of today's adults. Please, [SIGN ONLINE PETITION](#)**

No, **IMPUNITY may no longer encourage such failed leadership to continue occupying authority positions, while giving blind eye to the crimes by retaliatory mediocrity** and while encouraging predatory practices of taking advantage of this one of the most vulnerable, devalued, marginalized by unfair low wages professions with unique capacity to foster inner paradigm change - all ...EXCUSED by IMPUNITY. No! IMPUNITY may NOT encourage to take more advantage of already weak and vulnerable Carriers of Light, whom **IMPUNITY stops from sharing unique cultural heritage and the rare wisdom for elevating consciousness through music and the Arts.** Even the law of **Americans with Disabilities Act that reminds of practicing universal compassion instinct,** is often not enforced by public agencies that are certain about getting away with cruel retaliation and refusal of their duties to help alleviate suffering under shameless cover up by the legal double standard of IMPUNITY. And inertia for committing such evil may NOT go on and **MUST be stopped!**

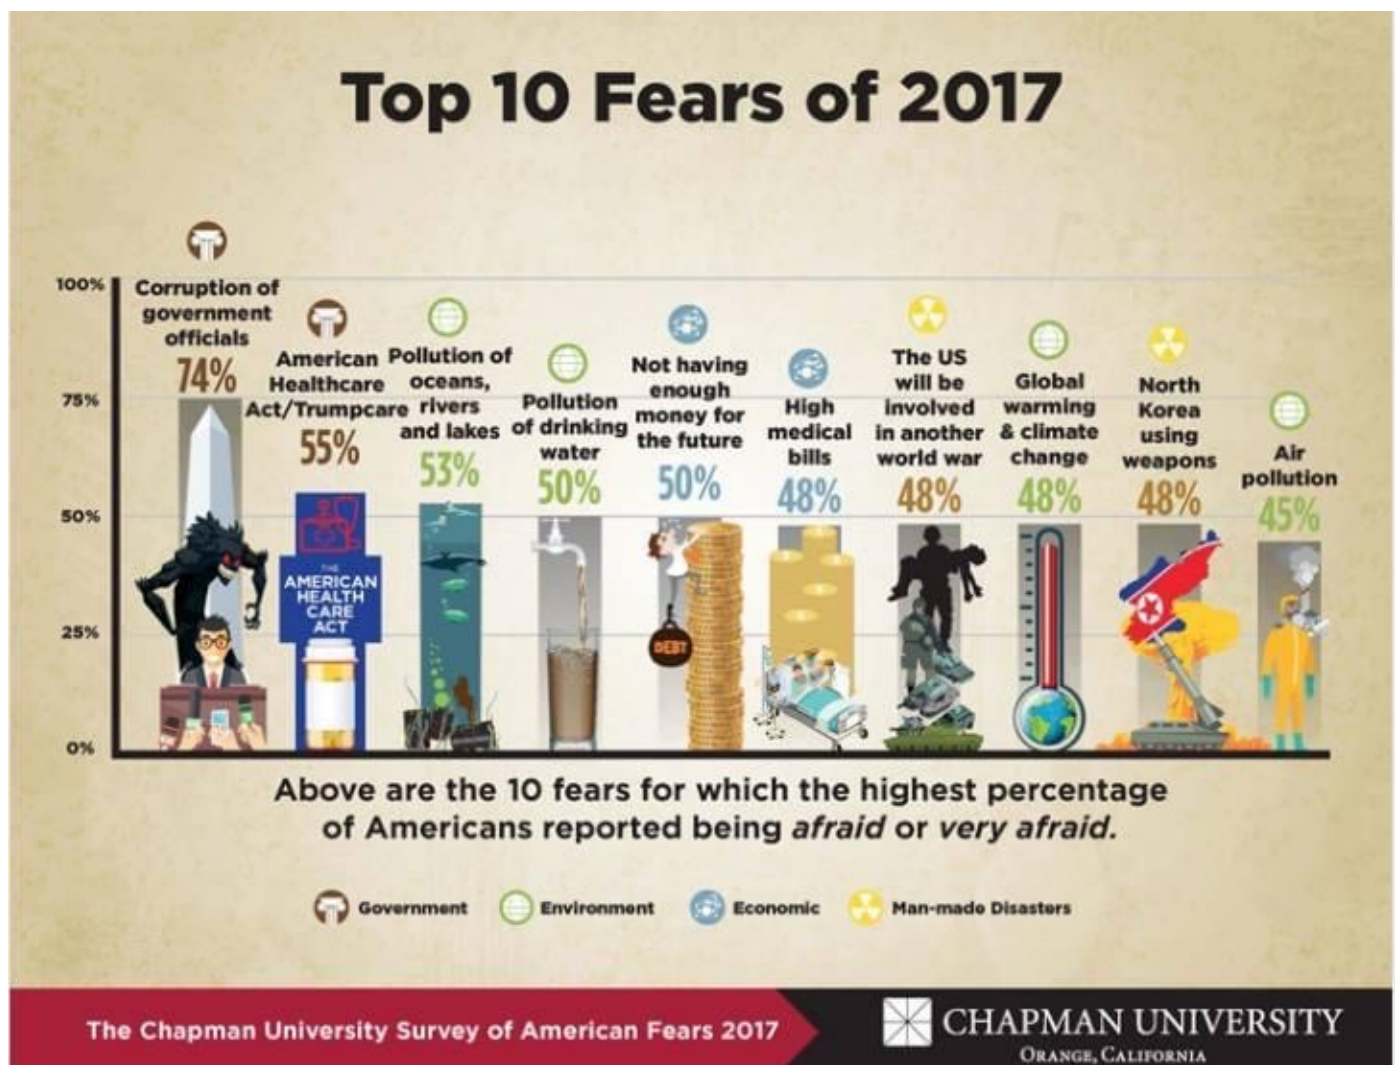

Impunity puppets

[**Biographical**™, the true life stories from Bach's advocate Ms. Rozalina Gutman are to reveal her shivering evident testimony on such outrage. ([Get notified of new releases and related events](#))]

Let's pause for a moment... and imagine: If Bach was to manifest today into our reality, he would likely be threatened by IMPUNITY with retaliatory imprisonment again - this time in democracy-oriented society. His strive for liberation of the human psyche and collective consciousness of the society from the tyranny of evolutionary relics of instinctive incivilities **still needs advocates against distortion of its features of highest potency impact**, three centuries later. But today, his linked by internet worldwide family of millions of Bach's fans will carry on his torch, leading humankind out of self-destruction, following the rare example of Bach's advocacy for humanity! **Join us today ! Help sharing this info about IMPUNITY - lurking upon all, shared enemy of humanity!**

ETHICALLY-MINDED PUBLIC SERVANTS HAVE MORAL OBLIGATION TO STEP FORWARD BY DENOUNCING IMPUNITY AND TO GIVE IT UP VOLUNTARILY, HELPING TO REVEAL LACKING FITNESS TO THE PUBLIC SERVICE BY THOSE, WHO CONDONE HIDEOUS CRUELTY OF IMPUNITY FOR CRIMES

This diagram with the results of *Survey of American Fears 2017* by Chapman University reveals THE top concern of the public - **74% of US taxpayers fear corruption of their public servants**, evident of staggering distrust to the power institutions. IMPUNITY plays the key role in this collective perception.

According to the shocking meaning of the above sobering data about our reality of living during COUNTDOWN2045 to the fast deepening Global EXISTENTIAL crisis, IMPUNITY allowed for the flawed Health and Safety Standards to permit **unstoppable** increases of normalized chemical toxicity. And decades after detection of the problem in 1990's it allowed for nothing to be corrected. And thanks to IMPUNITY such Crimes Against Humanity are committed on behalf of all taxpayers, whose funds are MISused to sustain such hazard for all at the center of democratic foundations of this cradle of world's democracy...

- So, why such incomparable to any other pandemics Global threat of the fast approaching HUMAN extinction isn't at the top of priority lists of all public health agencies?
 - Why the fast developing Zero Sperm Global Crisis had been irresponsibly left with no mere official worldwide acknowledgement and announcement by the leading public health agencies, leaving the public in the dark with no critical for health and safety information, distributed along with global and local strategies of prevention?
- The answer is quite surprising, yet very obvious at the same time:

IMPUNITY IS UNJUSTIFIABLE PUBLIC HEALTH HAZARD AND IS THE EXISTENTIAL THREAT TO HUMANITY DURING COUNTDOWN2045 TO "PAINLESS" H U M A N EXTINCTION

While the public is lacking sensory capacity to feel pain from developing environmental illnesses, the professional scientists have enough training to grasp the meaning of the statistical data and have responsibility to proclaim the global emergency and to provide global strategy for addressing various aspects of prevention for the looming catastrophe. The data for incomparable to any other pandemics Global threat of the fast approaching HUMAN extinction has to be at the top of priority lists of all public health agencies, but IMPUNITY permits for this problem to linger with no accountability.

IMPUNITY is the key reason, why the fast developing Zero Sperm Global Crisis had been irresponsibly left with no mere official worldwide acknowledgement and announcement by the leading public health agencies, leaving the public in the dark with no critical for health and safety information, distributed along with global and local strategies of prevention.

EXPUNGEMENT OF UNCONSTITUTIONAL IMPUNITY FROM US LAW IS THE ONLY SELF-COMPASSIONATE CHOICE IN COMPLIANCE WITH DATA IN ASCH, LUCIFER, LUCIFER EFFECTS, THAT ALLOWS FOR HUMANITY'S EXISTENCE DURING COUNTDOWN2045 TO "PAINLESS" H U M A N EXTINCTION

Paradox of IMPUNITY for immoral and unethical acts and crimes results from **no compliance with the critical data of the above referenced textbook cases, due to the described sociosomatics in Ash, Milgram, Lucifer Effects**. In fact, they demonstrated that people with the access to unlimited power need to be **constantly assessed for the instinctive sociosomatic tendencies of misusing authority against the vulnerable individuals they have duties to serve instead**. Thus, instead of current **lawlessness** of IMPUNITY among public servants, the compliance with long known research data, describing Ash, Milgram, Lucifer Effects should have **REQUIRED** for just the **CONTRARY** - not lower, but **HIGHER THAN AVERAGE MORAL AND ETHICAL STANDARDS** for those, who already have public mandate for unlimited power. These studies offer evidence, that **EXTRA MEASURES** are critical to curb the instinctive tendencies of human psyche to misuse authority

and to justify the practice of various hostility and ill-minded incivility towards perceived challengers of their errors and failures, to excuse their resentment to change.

Legalized, bluntly unethical IMPUNITY that had brought humanity to face its power to collapse our society, has the totality of a Black hole, capable to derail any positive change effort. That is why, this **indiscriminate public health hazard of IMPUNITY for public servants has to be eliminated by the intellectual leadership among our power institutions - they have the moral duty to call for expungement of this term from the text of US legislation.**

IMPUNITY has no political affiliation, is the non-partisan result of the blind spot of collective self defeat consciousness, reflective of the relics of the human brain that may not be allowed to continue to erode democratic foundations of our society, presiding over all decent individuals within the current governance system in the form of **invitation for the criminal minds to to misuse taxpayer-funded power of public service institutions, making mockery of their true purpose to serve the public according to just and equal principles of US Constitution.**

Cruel and brutal actions of criminalize already vulnerable individuals, who had no option, but to turn for help for solutions with overcoming dysfunctions of the system, ruined by IMPUNITY'S double standard, may not continue to be further abused by IMPUNITY, while putting a dark stain on those public servants, who are driven by the earnest citizen's obligations to serve the public, moved by sincere compassion, not the desire to find excusiology to avoid help, where it is needed the most.

VOLUNTARY CALL BY PUBLIC SERVANTS FOR EXPUNGEMENT OF IMPUNITY FROM USA LEGISLATION, BASED ON SELF-COMPASSION vs LANDMARK EXTRADITION ORDERS BY INTERNATIONAL CRIME COURT FOR COMPLICITY TO GLOBAL THREATS OF PREVENTABLE ENVIRONMENTAL ILLNESSES

The fact of giving a blind eye to the public health hazard of IMPUNITY is a **CRIME AGAINST HUMANITY**: Unless IMPUNITY is banished by the individuals with *the higher consciousness among power institutions*, it will continue to delight in hijacking and misusing of power, while being allowed to stay in the shadows, as the invisible, yet invincible and cruel killer of millions of its unsuspecting victims. **Environmental Insanity consciousness** is one of the worst manifestations of such systemic flaw, based on **the delusion of allowing for IMPUNITY to breed the leadership of delusional individuals, whom IMPUNITY-CULTURE pressured to betray the future of their own children** (among millions of other people). Such blind spot manifested, due to **SHUT DOWN of their parental instinct to protect them from more and more suffering**, due to the pressure of groupthink/authority, ruled by currently legalized IMPUNITY for resentment to change from suicidal trends of collective consciousness.

The cruel force of IMPUNITY-CULTURE PERMITTED THE CRIME OF NORMALIZING ENVIRONMENTAL ILLNESSES OF **STROKES, HEART ATTACKS, CANCERS, DEMENTIA, AUTISM among multitude of others, FAILING TO LABEL THEM AS SUCH**, and thus, **DECEIVING THE PUBLIC FROM THEIR PREVENTABLE NATURE**, forcing humanity to **sleepwalk into extinction**.

Such **Crimes Against Humanity** and IMPUNITY-driven failure to stop them with just prosecution in US Court is within jurisdiction of **the INTERNATIONAL CRIME COURT (ICC) in HAGUE, HOLLAND, that operates at the HIGHER legal standard, based on fairness, logic and reason.**

ICC institution with 120+ countries-members is **NOT** tainted by institutionalized cognitive dissonance of the paradoxically tolerated by US legislature phenomenon of IMPUNITY and other similar legal loopholes for notorious moral, ethical and legal violations. ICC has the legal capacity for *restoring clarity over erosion of democratic governance, caused by the systemic unfairness of preferential treatment for the crimes of doing nothing to stop suffering of millions of people from permitted manmade hazards.*

IMPUNITY leaves little hope for the outstanding members of the public to escape **the tyranny of current dominance of collective consciousness by mediocrity and incivility**. This “force” is deceitful and uses character assassination to appear as “a saint” and to criminalize the catalysts of urgent change, while herd instinct makes it easy to misuse the public trust.

And, because IMPUNITY is illusory, nothing but good implications will manifest from its expungement from US Law, thus it is to deflate its criminal power. *Only **hopelessly criminal minds** will suffer from no more cover up and will have to leave the space for those individuals with pure and true dedication to public service.*

What if... Bach was to manifest into our Age of Technology..? In such case, this creator of Fugue-Parody, conceived during his false retaliatory imprisonment, would invite millions of his devotees to use their laughter, as the citizen's duty to express righteous indignation about the

hysterical parts of legalized into IMPUNITY absurdity of cognitive dissonance. But the time has come, when continuing to play games of IMPUNITY'S **perpetual sinister “Comedy of Errors”** has become too painful to tolerate - **at the expense of disappearance of the human race.**

All forces of progress, led by **the worldwide FAMILY OF J.S.BACH'S DEVOTEES**, have moral obligation to address this collective blind spot - the task, made ever urgent, due to highlighted by Bach's music direct *link between HUMAN extinction and flawed collective consciousness*, during **pivotal moment of COUNTDOWN2045 TO “PAINLESS” H U M A N EXTINCTION.** Share our invitation *to join us to laugh to scorn* the crimes of self destructive and hazardous for all IMPUNITY that had been disallowing humanity to prevent existential threat ,of loosing birthright in disregard to suffering of millions of people.

SHORT SUMMARY OF

TOP RED ALERT FOR COUNTDOWN2045 TO ONSET ON “PAINLESS” H U M A N EXTINCTION AND ITS ROOT CAUSE - SENSORY DEACTIVATION OF PAIN ALARMS TO TOXICITY!

Every citizen should gain awareness of making their priority for preventing impacts of elusive **ZERO Sperm Global Crisis (=HUMAN extinction onset)**, forecasted by 60+ global studies to onset by 2045 to effect generation of **grandchildren of today’s adults**. Just like the onset of cancer, heart attacks, strokes and many other *environmental illnesses*, it is hard to grasp its **ROOT CAUSE - Sensory Deactivation of PAIN ALARMS to toxicity**, part of the elusive, left unopposed multigenerational zombification trend. **False perception of this global existential threat as “painless” is the ROOT cause for suicidal for humanity lack of PRIORITY for prevention measures, while it is still possible.** Fortunately, tangible HOPE accompanied observed results of **music/Arts-based Sensory Reawakening** (involving music of J.S.Bach), facilitating clearance of the collectively transmitted blind spot of collective consciousness. It revealed the capacity of music to facilitate **self propelled evolution** of evolutionary young human brain over its universal dysfunctions, by reflection of their intangible essence through embodiment into musical metaphors, effectively facilitating *self liberation from the enslavement by instinctive evolutionary relics of the human mind*. Such universal and urgent engagement with proactive practice of music/Arts is *urgent and EXISTENTIAL for ALL*, due to the current time constraints of **COUNTDOWN2045**. Observed effects of music-based Emotional Reawakening *demonstrated the effect of high efficacy counterpoint to the widespread pandemic of emotional scarcity and sensory deprivation, disruptive of inter-hemispheric balance and heart-brain link among the public and manifesting into collective consciousness of self defeat*. Being fundamental for optimal integrative holistic consciousness, the use of Music instinct for fostering balanced cognition is central for shifting from current dominance of flawed inner scale of prioritizing capacity at unconscious level, driven by scarcity of sensory input. *Without addressing the need for the inner shift in cognitive processes and consequential reflection in the formation of the new INTEGRATIVE collective consciousness, inconvenient truth about dangerous toxicity will not be inconvenient ENOUGH, in order to compete with inertia of dependency on addictive existing toxic conveniences that have to seize, to allow for humanity’s future.*

Thus, **NO BUSINESS AS USUAL** mindset in the face of **COUNTDOWN2045** is the key to prevent “painless” *HUMAN extinction during fast closing window of opportunity for it:*

The top priorities have to be made for elimination of offgassing/artificial scent in many toxic consumer products, along with reversing the premises of zombification, that led to **Sensory Complicity to toxicity**.
